

Queensland — the water safe state

We, the members of the Ministerial Water Safety Roundtable, pledge our commitment to do all that we can to ensure that every Queenslanders has the skills and knowledge they need to be safe in and around water.

We commit to:

- ensuring all children are offered the opportunity to engage in appropriate water safety and learn to swim programs
- developing and sharing consistent water safety messages throughout the community
- take action as outlined in the Water safety action statement.

Together, Queensland Government and their non-government partners are working to make Queensland a water safe state.
